## THE PASSING OF ARSENY ROGINSKY

The world of those concerned with human rights has darkened with the passing of a great man who exemplified the best in the fight for truth and human rights and against the bestiality of the oppressors. Mr. Roginsky fought for liberty and justice, giving of himself in this fight, even accepting imprisonment as the price for pursuit of a peaceful world in which the respect of individual liberties was paramount.

The Union of Councils for Jews in the former Soviet Union (UCSJ) joins with organizations and individuals around the world in mourning his loss. He will be difficult to replace, but we will all continue to carry on his fight for human dignity.

Larry Lerner  
President, UCSJ
